Summary

Currently, I am working as a senior software engineer as part of the frontend team, developing both mobile and web applications using the Flutter framework, creating dynamic user interfaces, integrating APIs, and ensuring app performance and responsiveness. I am dedicated to delivering high-quality, user-friendly solutions that meet both business and user needs.

Experience

Pegasus InfoCorp   **Sep 2023 – Present**

Senior Software Engineer   *Mumbai, Maharashtra*

- Review and redesign of existing IPartner PRO application of ICICI Lombard GIC using Flutter
- Collaborate with Software Development and business analyst to develop app.
- Integration of Restful API using provider state management library and create user-friendly User Interface

Sodel Solutions   **August 2021 – Aug 2023**

Software Engineer   *Navi Mumbai, Maharashtra*

- Designed, implemented, Flutter and Dart code using MVVM Model as well as CLEAN architecture for IOS, Android and Web.
- Integrated various third-party APIs and services, such as Google Maps to enhance app functionality.
- Contributed to the development of the backend APIs and databases for the project.
- Implemented responsive design principles to ensure the app works seamlessly across various screen sizes and resolutions.

Projects

iPartner Pro / *Flutter, Dart*   **Present**

- Implemented state management solutions (e.g., Provider) to handle complex business logic, enhancing app responsiveness and reliability.
- Collaborated with cross-functional teams, including UI/UX designers, backend developers, and product managers, software testers, business owner to ensure seamless integration and user experience.
- Designed and implemented gamification features within the insurance app
- Developed reward-based user interaction flows using Flutter, enhancing customer satisfaction and encouraging repeat use of the app.
- Solved discrepancies between API responses and UI screens, improving data consistency and reducing user-reported issues by 20%
- updated a dropdown list based on a selected list item and show the count of renewal policies against each policy type in Flutter

Mahindra Personal Loan / *Flutter, Dart*   **Dec 2022**

- Developed custom widgets and components to ensure code reusability and scalability.
- Collaborated with backend developers to define and implement APIs that meet the needs of the application.
- Managed application state using state management tools like Provider.
- Implemented deep linking in mobile applications to provide users with seamless navigation to specific content within the app and improve the overall user experience.
- Router to implemented navigation and CLEAN Architecture for project structure
- Utilized version control systems such as Git to manage source code and collaborate with other developers.

Nomad / *Flutter, Dart*   **Jul 2022**

- Developed custom widgets and components to ensure code reusability and scalability. (pagination, Graph, ticket clipper animations, sticky headers animation side drawer, expandable google maps, custom map marker)
- Collaborated with backend developers to define and implement APIs that meet the needs of the application.

- Managed application state using state management tools like Provider.
- Utilized version control systems such as Git to manage source code and collaborate with other developers.

Workcertain / *Flutter, Dart*   **April 2022**
- Developed custom widgets and components to ensure code reusability and scalability.
- Collaborated with backend developers to define and implement APIs that meet the needs of the application.
- Managed application state using state management tools like Provider.
- Implemented deep linking in mobile applications to provide users with seamless navigation to specific content within the app and improve the overall user experience.
- Utilized version control systems such as Git to manage source code and collaborate with other developers.

Skills

- REST APIs, data programing, flutter development, Mobile Application Development, flutter framework, State management, Troubleshooting

Education

Masters of computer Applications MCA   **GPA:7.33**
Bharati Vidyapeeth's Institute of management and information technology
(University of Mumbai)   *June 2018 – May 2021*

Bachelor of science (information technology) bscit   **GPA:4.9**
JVM's Mehta college (University of Mumbai)   *June 2014 – May 2018*

HSC (Higher Secondary Certificate)   **Aggregate: 5 4 .62%**
SPN Doshi Women College (University of Mumbai)   *March, 2014*

SSC (Secondary School Certificate)   **Aggregate:81.60%**
Dnyanprakash Vidyalaya   *March, 2012*
